Attorneys for Plaintiffs

IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF UTAH, CENTRAL DIVISION

SAN JUAN COUNTY, UTAH, a political subdivision, and STATE OF UTAH, Plaintiffs, vs. UNITED STATES OF AMERICA, Defendant.	**AMENDED COMPLAINT TO QUIET TITLE** Case No. 2:12-cv-00467-DAK Judge: Honorable David A. Kimball

San Juan County, Utah ("San Juan County" or "County"), a Utah political subdivision, and the State of Utah ("State") (collectively referred to as "Plaintiffs") as their Amended Complaint against the Defendant, United States of America ("United States"), allege as follows:

INTRODUCTION

This is an action to quiet title to certain described rights-of-way for highways, including the scope thereof, under the grant of Section 8 of the Mining Act of 1866, 14 Stat. 251, 253, later

codified as Revised Statutes 2477 and as 43 U.S.C. § 932 (repealed October 21, 1976, with savings provisions recognizing validity of rights-of-way already established) (hereinafter "R.S. 2477"). For judicial convenience and ease of reference, the rights-of-way at issue herein have been divided into twenty-four geographic areas, each with approximately three to one hundred seventy three roads. Each geographic area has been pleaded as a separate cause of action.

JURISDICTION AND VENUE

1. The claims asserted herein arise under the Quiet Title Act ("QTA"). 28 U.S.C. § 2409a (2006).

2. This Court has subject matter jurisdiction under 28 U.S.C. § 2409a (quiet title) and 28 U.S.C. § 1346(f) (quiet title), as this case involves Plaintiffs' claims to ownership of public highway rights-of-way crossing lands of the United States.

3. Plaintiffs claim title to the public highway rights-of-way crossing lands of the United States at issue in this case as joint undivided owners. *See* UTAH CODE ANN. §§ 72-5-302(2) (Supp. 2011) and -103(2)(b) (2004).

4. On or about December 8, 2011, the State filed a Notice of Intention to File Suit to Quiet Title to Certain Rights-of-Way in San Juan County, Utah, with the Secretary of Interior over the R.S. 2477 rights-of-way that are the subject of this action. A copy of this letter is attached as Exhibit 1. This 2011 Notice of Intent supplemented the State's prior Notice of Intent regarding R.S. 2477 sent in June 2000. A copy of this letter is attached as Exhibit 2. Thus, the State has complied with the requirement to provide notice to the head of the federal agency with jurisdiction over the lands in question 180 days prior to filing this action. 28 U.S.C. § 2409a(m).

5. Venue is proper under 28 U.S.C. § 1391(e) inasmuch as the lands at issue are located within the state of Utah.

PARTIES

6. Utah is one of the fifty sovereign states forming the United States of America, having been admitted to the Union on January 4, 1896, on an equal footing with the original states. Executive power for the State is vested in the Governor, who is responsible for seeing that the laws of Utah are faithfully executed. UTAH CONST. art. VII, § 5; UTAH CODE ANN. § 67-1-1 (2008).

7. San Juan County is a political subdivision of the state of Utah, located in the southeastern area of the state, and is authorized to maintain this action. UTAH CODE ANN. § 17-50-302(2) (2009).

8. Pursuant to the Utah Constitution, the State owns all property interests acquired from the United States at or after the time of statehood. UTAH CONST. art. XX. The State and the County are joint owners of R.S. 2477 rights-of-way within San Juan County, Utah. UTAH CODE ANN. §§ 72-5-302(2) (Supp. 2011) and -103(2)(b) (2004); *id.* §§ 72-3-103(3) (2004) and -105(3). As an undivided joint owner of the public highway rights-of-way claimed herein, the State is duly authorized to maintain this action. *See* UTAH CONST. art. VII, § 1; *see also generally* UTAH CODE ANN. §§ 72-5-103 through -105, and 72-5-302 (Supp. 2011).

9. In this action, Plaintiffs seek to quiet title in those rights-of-way located within San Juan County, Utah.

10. Defendant United States is the owner of the lands traversed and bordered by the roads and rights-of-way claimed in this action. The United States Department of the Interior (”DOI”) and Bureau of Land Management (“BLM”) are tasked with managing and protecting the Defendant’s interests in the lands traversed and bordered by the roads and rights-of-way claimed in this action.

THE CONGRESSIONAL GRANT OF RIGHTS-OF-WAY FOR PUBLIC HIGHWAYS CROSSING PUBLIC LAND

11. R.S. 2477 provides as follows: “*And be it further enacted*, That the right of way for the construction of highways over public lands, not reserved for public uses, is hereby granted.” Act of July 26, 1866, ch. 262, § 8, 14 Stat. 251, 253, codified at 43 U.S.C. § 932, repealed by Federal Land Policy Management Act of 1976 (FLPMA), Pub.L. No. 94-579 § 706(a), 90 Stat. 2743.

12. R.S. 2477 was an open congressional grant *in praesenti* of public highway rights-of-way for the benefit of miners, ranchers, homesteaders, and all other members of the public who had need to travel across public lands.

13. Acceptance and vesting of R.S. 2477 rights-of-way required no administrative formalities: no entry, no application, no license, no patent, and no deed on the federal side; no formal act of public acceptance on the part of the states or localities in whom the right was vested. *See Southern Utah Wilderness Alliance v. Bureau of Land Mgmt.*, 425 F.3d 735, 741 (10th Cir. 2005) (hereinafter “*SUWA v. BLM*”). R.S. 2477 operated as a standing offer of a right-of-way over the public domain, and the grant may be accepted without formal action by public authorities. *Id.*

LONG-STANDING DEPARTMENT OF INTERIOR INTERPRETATION OF R.S. 2477

14. Prior to its recent adverse actions, the DOI historically recognized and agreed that state law is borrowed so as to govern the acceptance, scope, and regulatory jurisdiction of R.S. 2477 public highways.

15. Over the years, the DOI adopted numerous regulations and policies interpreting the congressional grant of R.S. 2477 rights-of-way. These regulations and policies served to ensure the DOI's compliance with its statutory duty to manage the public lands subject to valid existing rights.

16. As of and following 1939, R.S. 2477 interpretive regulations found at 43 C.F.R. § 244.55 (1939) stated:

> [R.S. 2477] becomes effective upon the construction or establishing of highways, in accordance with the State laws, over public lands not reserved for public uses. No application should be filed under said R.S. 2477 as no action on the part of the Federal Government is necessary.

17. As of and following 1963, R.S. 2477 interpretive regulations found at 43 C.F.R. § 244.58 (1963) stated:

> Grants of [R.S. 2477 rights-of-way] become effective upon the construction or establishment of highways, in accordance with the State laws, over public lands, not reserved for public uses. No application should be filed under R.S. 2477, as no action on the part of the Government is necessary.

18. As of and following 1974, R.S. 2477 interpretive regulations found at 43 C.F.R. §§ 2822.1-2 & 2822.2-1 (1974) stated:

> No application should be filed under R.S. 2477, as no action on the part of the Government is necessary. … Grants of [R.S. 2477

> rights-of-way] become effective upon the construction or establishment of highways, in accordance with the State laws, over public lands, not reserved for public uses.

19. As of and following 1986, R.S. 2477 interpretive policies stated in the Bureau of Land Management Manual, R.2-229 stated:

> When public funds have been spent on the road it shall be considered a public road. When the history of the road is unknown or questionable, its existence in a condition suitable for public use is evidence that construction sufficient to cause a grant under R.S. 2477 has taken place.

20. As a matter of federal law, R.S. 2477 borrows from State law relating to acceptance (validity) and scope of such rights-of-way. *See SUWA v. BLM*, 425 F.3d 735 (10th Cir. 2005).

21. R.S. 2477 rights-of-way vested by acts of governmental entities or the public evidencing the acceptance of the right-of-way during operation of the grant.

22. R.S. 2477 rights-of-way were accepted by various acts of the local government highway authority or the public, including, but not limited to, (1) designating the road as a general public highway; (2) expending State or County funds to construct or maintain the road for general highway purposes prior to October 21, 1976; and/or (3) continually using the road as a public thoroughfare, as often as convenient or necessary, for a continuous period of 10 years prior to October 21, 1976, or such earlier date as may be applicable to a prior federal reservation. *See, e.g.,* UTAH CODE ANN. § 72-5-104 (Supp. 2011). *See, e.g.,* UTAH CODE ANN. § 72-5-104 (Supp. 2011).

23. Congressionally granted R.S. 2477 public highway rights-of-way are property interests, sometimes considered a species of easement. As a congressional grant of property for public purposes, the grant includes the right of use and enjoyment, and the implied or actual right to cross public land to access and use the property interest granted.

24. The scope of an R.S. 2477 right-of-way is not restricted to the beaten path of the road, which DOI now characterizes as the "disturbed width." The scope of an R.S. 2477 right-of-way includes the physical features of the right-of-way as accepted and used, and that which is reasonable and necessary to accommodate the exigencies of increasing travel. *See id.* § 72-5-104(3).

25. R.S. 2477 case law, long-standing DOI interpretation, and historical practice establish the scope of the rights-of-way claimed herein to include that which is reasonable and necessary to ensure safe travel and passage of vehicles on a two-lane road according to sound engineering practices that protect the safety of the traveling public, the features of the road, and improvements that prevent undue degradation or impairment of adjacent lands and resources.

26. Such areas along the roadway beyond the actual beaten path as are reasonable and necessary to provide safe travel on the road, including lands on which attendant accoutrements such as drainage ditches and culverts existed as of the date of the reservation of the subject lands adjacent to the road, or are reasonably and necessarily added after that date to accommodate increased travel for pre-existing uses, are part of the reasonable and necessary use of the roadway, and are therefore within the scope of each highway right-of-way. *See Sierra Club v. Hodel,* 848 F.2d 1068, 1083-84 (10th Cir. 1988).

27. Applicable law, historical practice, and sound engineering confirm that an R.S. 2477 right-of-way, as distinguished from the disturbed width of the road, includes a minimum width of 66 feet and any features, facilities, cuts, slopes, water bars, drainage runouts, and fill areas necessary to ensure a safe travel surface as reasonable and necessary under the circumstances specific to each road.

28. The congressional grant of public highway rights-of-way embodied by R.S. 2477 operated on unreserved public lands for 110 years until it was repealed on October 21, 1976, by the Federal Land Policy and Management Act of 1976 ("FLPMA"), 43 U.S.C. § 1701 *et seq.*

29. In repealing R.S. 2477, Congress preserved vested R.S. 2477 rights-of-way as valid existing rights and expressly directed the United States and its subordinate agencies (including the DOI and the BLM) to manage federal lands subject to these valid existing rights.

30. Section 701(h) of FLPMA provides as follows: "All actions by the Secretary concerned under this Act shall be subject to valid existing rights." *Id.* § 1701, note; *see also id.* § 1769(a) ("Nothing in this subchapter shall have the effect of terminating any right-of-way or right of use heretofore issued, granted or permitted.").

PLAINTIFFS' R.S. 2477 AND PUBLIC HIGHWAY RIGHTS-OF-WAY

31. Plaintiffs' R.S. 2477 and public highway rights-of-way, easements, and rights-of-entry (collectively referred to as "rights-of-way") serve the common good, benefit the public, and implement the congressional intent of facilitating safe and efficient travel across public lands. The R.S. 2477 rights-of-way granted by Congress necessarily include an implied right of access to the rights-of-way so that they may be used as public thoroughfares.

32. San Juan County classifies its public highways as Class B (maintained) and Class D (lightly maintained) county roads. This classification is a matter of Utah law and is, herein, generally relevant only to the manner of acceptance of the rights-of-way for the roads. *See* UTAH CODE ANN. §§ 72-3-101 through -105 (2004) (explaining Utah's road classification system).

33. At all times relevant herein, Utah law provided that R.S. 2477 rights-of-way could be accepted by various acts of the local government highway authority or by acts of the public, including, but not limited to, (1) designating the road as a general public highway, also known as a Class B county road; *See id.* § 72-3-103 (prior law in accord); *see also id.* § 27-12-22 (1963); (2) expending State or County funds to construct or maintain a road for general highway purposes prior to October 21, 1976; and/or (3) continually using the road as a public thoroughfare, as often as convenient or necessary, for a continuous period of 10 years prior to October 21, 1976, *see id.* § 72-5-104 (Supp. 2011) (stating that a public highway right-of way is "dedicated and abandoned to the use of the public when it has been continuously used as a public thoroughfare for a period of 10 years").

34. The R.S. 2477 rights-of-way for the Class B and D roads claimed herein were initially accepted as public highways by public use for a continuous period of at least 10 years prior to October 21, 1976, or such other date as requisite for the acceptance of a particular road and its right-of-way claimed herein.

35. The R.S. 2477 rights-of-way for the Class B and D roads may also have been accepted by San Juan County's designation of these roads as county general highways and/or by San Juan County's expenditure of State and County funds to construct or maintain these roads as

public highways prior to October 21, 1976, or such other date as requisite for the acceptance of a particular road and its R.S. 2477 right-of-way claimed herein.

36. Plaintiffs, by and on behalf of the public, accepted and own the R.S. 2477 rights-of-way for the roads described herein.

37. However, San Juan County is the highway authority with sole jurisdiction and control of all Class B and Class D roads within its borders. UTAH CODE ANN. §§ 72-3-103(4) and -105(4) (2004). San Juan County has the sole obligation to manage, construct, and maintain its Class B roads to meet general travel standards established by State law. *See id.* §72-3-103(5).

38. Prior to October 21, 1976, or such other date as is requisite for the acceptance of a particular right-of-way, Plaintiffs accepted R.S. 2477 rights-of-way for the roads claimed herein on unreserved public lands.

39. In addition to the public lands of the United States, some of the roads claimed in this action have segments that access and cross land now or formerly owned by the State of Utah and the Utah School and Institutional Trust Land Administration (sometimes collectively referred to as "SITLA").

40. In those instances where the roads and rights-of-way cross lands formerly in SITLA ownership, Plaintiffs' rights-of-way claimed herein were accepted and perfected as valid existing rights-of-way through the facts set forth herein, prior to the United States' ownership of the subject lands. Title of the United States is subject to these valid existing rights as a matter of law. 43 U.S.C. § 1701, note (2006); cf. UTAH CODE ANN. § 53C-4-203(2) (2009) (stating that patents for SITLA lands are "subject to any valid existing easement or public right-of-way"). In

each cause of action set forth below, Plaintiffs' claimed rights-of-way include those granted pursuant to R.S. 2477 and established under law as valid existing rights on the land at issue.

41. The course, existence, and location of the rights-of-way and roads that cross private and SITLA land have not been challenged and are not at issue in this action. This action seeks to quiet title to the rights-of-way crossing the lands of the United States.

42. Plaintiffs' vested public highway rights-of-way for the roads claimed herein continue as valid existing rights until formally abandoned by Plaintiffs. *See* UTAH CODE ANN. §§ 72-5-105(1) and -305 (Supp. 2011).

43. Plaintiffs have not abandoned the rights-of-way for any of the roads claimed in this action.

AREA DESCRIPTIONS

44. In order to better organize the rights-of-way included in this Amended Complaint to fit within Utah's transportation system, the roads have been divided into twenty-four areas: (1) Alkali Point Area, (2) Beef Basin Area, (3) Black Mesa Area, (4) Bridger Jack Area, (5) Brushy Basin Area, (6) Bucket Canyon Area, (7) Bug Point Area, (8) Coal Bed Canyon Area, (9) Comb Wash Area, (10) Coyote Wash Area, (11) Flat Iron Mesa Area, (12) Fortknocker Canyon Area, (13) Grandview Point Area, (14) Hart Point Area, (15) Hatch Point Area, (16) Johnson Creek Area, (17) La Sal Loop Road Area, (18) Lisbon Valley Area, (19) Lockhart Basin Area, (20) McCracken Mesa Area, (21) Nokai Dome Area, (22) Red Canyon Area, (23) Slick Horn Area, and (24) Snow Flat Area, (collectively, the "Twenty-Four Areas").

The Red Canyon Area includes the following roads—listed by Common Road Name (if applicable) and County Unique Number: (1) Blue Notch Road, B2061; (2) Fry Mesa Road, B2371; (3) Happy Jack Road, B2071; (4) Mossback Road, B2431; (5) Mossback Dugway Road, B2591; (6) Radium King Road, B258; (7) Red Canyon Road, B259; (8) D0009 Road; (9) D0010 Road; (10) D0012 Road; (11) D0013 Road; (12) D0015 Road; (13) D0016 Road; (14) D0017 Road; (15) D0018 Road; (16) D0019 Road; (17) D0022 Road; (18) D0024 Road; (19) D0025 Road; (20) D0026 Road; (21) D0027 Road; (22) D0029 Road; (23) D0030 Road; (24) D0033 Road; (25) D0036 Road; (26) D0037 Road; (27) D0065 Road; (28) D0066 Road; (29) D1166 Road; (30) D2029 Road; (31) D2030 Road; (32) D2031 Road; (33) D2034 Road; (34) D2035 Road; (35) D2041 Road; (36) D2042 Road; (37) D2043 Road; (38) D2052 Road; (39)

91. The Slick Horn Area is located in south-central San Juan County and is shown on Exhibit 25, attached hereto and incorporated herein.

92. The Slick Horn Area includes the following roads—listed by Common Road Name (if applicable) and County Unique Number: (1) Collins Spring Road, B260; (2) Harmony Flat Road, B2311; (3) Hat Flat Road, B2531; (4) Head of Johns Canyon Road, B2211; (5) John's Canyon Road, B244; (6) Mexican Hat Boat Launch Road, B2241; (7) Mexican Hat North Road, B2151; (8) Mexican Hat Road, B272; (9) Mormon Trail Road, B2301; (10) Muley Point Road, B241; (11) Point Lookout Road, B203; (12) Sheiks Flat Road, B250; (13) Slick Horn Road, B245; (14) South Road, B251; (15) Todie Flat Road, B2361; (16) D0043 Road; (17) D0044 Road; (18) D0045 Road; (19) D0046 Road; (20) D0047 Road; (21) D0048 Road; (22) D0049 Road; (23) D0053 Road; (24) D0054 Road; (25) D0055 Road; (26) D0056 Road; (27) D0058 Road; (28) D0059 Road; (29) D0061 Road; (30) D0062 Road; (31) D0064 Road; (32) D0084 Road; (33) D0091 Road; (34) D0094 Road; (35) D0103 Road; (36) D0457 Road; (37) D0458 Road; (38) D0462 Road; (39) D2191 Road; (40) D2195 Road; (41) D2199 Road; (42) D2201 Road; (43) D2202 Road; (44) D2204 Road; (45) D2208 Road; (46) D2214 Road; (47) D2229

93. The Snow Flat Area is located in south-central San Juan County and is shown on Exhibit 26, attached hereto and incorporated herein.

94. The Snow Flat Area includes the following roads—listed by Common Road Name (if applicable) and County Unique Number: (1) Cigarette Spring Road, B239; (2) Lime Creek Road, B226; (3) Lime Ridge Road, B2351; (4) Mexican Hat Rock Road, B2161; (5) Snow Flat Road, B237; (6) Valley of the Gods Road, B242; (7) D0050 Road; (8) D0051 Road; (9) D0052 Road; (10) D0057 Road; (11) D0080 Road; (12) D0081 Road; (13) D0082 Road; (14) D0085 Road; (15) D0086 Road; (16) D0087 Road; (17) D0092 Road; (18) D0164 Road; (19) D0165 Road; (20) D0171 Road; (21) D0172 Road; (22) D0173 Road; (23) D0174 Road; (24) D0179 Road; (25) D0180 Road; (26) D0208 Road; (27) D1122 Road; (28) D1168 Road; (29) D2200 Road; (30) D2267 Road; (31) D2268 Road; (32) D2271 Road; (33) D2294 Road; (34) D2536 Road; (35) D4197 Road; (36) D4222 Road; (37) D4273 Road; (38) D4602 Road; (39) D4611 Road; (40) D4612 Road; (41) D4629 Road; (42) D4645 Road; (43) D4647 Road; (44) D4665 Road; (45) D4668 Road; (46) D4669 Road; (47) D4729 Road; (48) D4730 Road; (49) D4742 Road; (50) D4798 Road; and (51) D4803 Road.

95. The surveyed centerlines of the above-named roads in the Twenty-Four Areas are displayed, respectively, as Exhibits 28-1730, attached hereto and incorporated herein. Each centerline was plotted using NAD83 mapping grade Global Positioning Survey ("GPS") data collected by Plaintiffs. This centerline data has been verified, confirmed by on the ground inspection, referenced to historic aerial photography, and overlaid upon United States Geological Survey ("USGS") topographic maps.

96. The information and documentation relevant to the above Twenty-Four Areas was collected by personnel of the State and the County and compiled pursuant to Utah law. *See* UTAH CODE ANN. §§ 72-5-309 and -310.

97. Within each cause of action set forth below, the right-of-way is shown by map, description, and by reference to verified GPS data plotted on maps showing the United States Public Land Survey System ("PLSS") aliquot parts of each section, township, and range crossed by the right-of-way.

98. The USGS 7.5- and 15-minute quadrangle maps covering San Juan County evidence the existence, use, and acceptance of the rights-of-way in this action prior to 1976. See Exhibit 27 for detailed map information.

99. As a matter of historical practice within the agencies of the United States, rights-of-way crossing federal lands are granted, recognized, and acknowledged by reference to PLSS aliquot parts. That is, the United States and its agencies grant, recognize, and acknowledge rights-of-way on federal lands by reference to PLSS aliquot parts and not by metes and bounds.

100. With more precision than a PLSS aliquot part description, Plaintiffs have also provided maps and a GPS data description of the location and centerline course of the roads crossing the rights-of-way claimed herein. The precision in these descriptions exceeds that which has been historically recognized by the United States as sufficient to describe and confirm rights-of-way crossing its lands.

101. Notwithstanding the diligent precision and particularity pleaded herein, each and every right-of-way and road claimed herein exists, is to be decided, and is to be established by the course, location, and historical existence of the right-of-way on the ground as has been accepted, used, and enjoyed by, for, and on behalf of the public, including deviations in course recognized by law as being reasonable and necessary.

102. This action seeks to quiet title only to those portions of the rights-of-way and roads claimed herein and described in the GPS data, attached hereto as Exhibits 28-1730, crossing public lands under the jurisdiction of the DOI. As stated earlier, the course, existence, and location of the segments of the rights-of-way and roads crossing private and SITLA lands are not at issue, are not contested, and are not claimed herein.

103. The segments of roads, if any, crossing United States land managed by federal agencies other than BLM and DOI are not at issue in this Amended Complaint. Plaintiffs, however, do not concede that the segments are not R.S. 2477 rights-of-way and reserve the right to bring a future quiet title action on these segments.

THE CASE OR CONTROVERSY

A. The Case or Controversy over Disputed Title to Roads over R.S. 2477 Rights-of-Way

104. San Juan County encompasses approximately 7,930 square miles of land. Approximately 61 % of the land within the County is federal land.

105. Due to the vast expanse of federal land in San Juan County, R.S. 2477 provides the sole legal basis for San Juan County to claim title to many of the rights-of-way that serve as roads and public highways in the county. All such roads that exist over R.S. 2477 rights-of-way and that are at issue in this suit were authorized, established, constructed, or accepted as R.S. 2477 rights-of-way on unreserved lands prior to October 21, 1976, or have vested as public highways, easements, and valid existing rights by law as set forth in the facts below.

106. The roads over R.S. 2477 rights-of-way have long served the common good by providing a safe and efficient transportation system within San Juan County. Some of the roads over R.S. 2477 rights-of-way in this action predate Utah's statehood in 1896.

107. The roads over R.S. 2477 rights-of-way described in this Amended Complaint connect roads in the County and in adjacent counties and are integral components of the State of Utah and County's transportation systems.

108. The roads over R.S. 2477 rights-of-way have long served the vital function of linking communities, business operations, private land, and SITLA land and were historically established and constructed to facilitate settlement, commerce, and general public access to public lands and communities.

109. The roads over R.S. 2477 rights-of-way claimed herein are important because, in many instances, there are no alternative routes to serve the public's transportation needs.

110. For decades, and in some instances a century, Plaintiffs and the public have benefitted from the quiet and peaceful enjoyment of the roads over R.S. 2477 rights-of-way. In 1976, Congress enacted FLPMA, and R.S. 2477 ceased as a means whereby states and counties could acquire new rights-of-way over public lands. Any and all R.S. 2477 rights-of-way and easements then existing were grandfathered and preserved by Congress as valid and existing rights.

111. Accordingly, Congress directed the agencies of the United States to manage federal public lands subject to the valid existing rights of the State of Utah and its counties, including their R.S. 2477 rights-of-way.

112. Historically, the County, federal land managers, ranchers, mineral resource developers, and other members of the public generally cooperated in the construction, maintenance and use of the roads over R.S. 2477 rights-of-way in furtherance of the common good and without specific concern regarding legal ownership.

113. Without any change in FLPMA or other federal law, the DOI and its agencies recently have engaged in efforts to impair or entirely deprive the State of Utah, San Juan County, and the public of the use of their vested rights to roads over R.S. 2477 rights-of-way. In so doing, DOI has abrogated its duty to manage public lands subject to valid existing rights.

114. DOI's recent actions have sparked numerous lawsuits and conflicts across the West, including this lawsuit.

B. The Quiet Title Act is the Proper Mechanism for Quieting Title to Plaintiffs' Claimed Rights-of-Way in this Case

115. Under the Quiet Title Act, 28 U.S.C. § 2409a, the only prerequisite for a party bringing suit against the United States to quiet title in and to land or property interests is that the aggrieved party have a "reasonable awareness" that the United States claims some interest adverse to the claims of that party.

116. Under Article III of the Constitution, an aggrieved party has standing to bring a Quiet Title Act claim if the party suffers adverse economic effects as a result of uncertainty regarding legal ownership of a right-of-way.

117. An adverse economic effect constitutes injury in fact and results from unresolved questions of land ownership.

118. The State of Utah and San Juan County have suffered and are continuing to suffer economic injury from uncertainty regarding legal ownership of the roads over R.S. 2477 rights-of-way at issue in this case.

119. The confusion regarding the existence, location, scope, and ownership of roads over R.S. 2477 rights-of-way at issue in this case has created dangerous lapses in road maintenance, uncertainty regarding future road funding, and economic injuries to the State of Utah and San Juan County which only resolution by the Court can redress.

120. The Quiet Title Act was enacted at the suggestion of then-United States Attorney General, who explained that such suits were necessary for

> a plaintiff whose title to land was continually being subjected to litigation in the law courts. [Such a plaintiff] could bring a suit to quiet title in a court of equity in order to obtain an adjudication on

> title and relief against further suits. Similarly, one who feared that an outstanding deed or other interest might cause a claim to be presented in the future could maintain a suit to remove a cloud on title.

H.R. REP. NO. 92-1559, at 4 (1972), *reprinted in* 1972 U.S.C.C.A.N. 4547, 4551, 1972 WL 12541, 4.

121. The Attorney General also specifically highlighted the cases in which the QTA is applicable, including "in boundary disputes between the United States and owners of adjacent property. The quieting of title where the plaintiff claims an estate less than a fee simple-- an easement or the title to minerals-- is likewise included in the terms of the proposed statute." *Id.* at 5.

122. Once the federal government has formally asserted a claim to an interest in land in which a state government also claims an interest, a state government is entitled to treat the land as "real property in which the United States claims an interest." Additionally, once the United States claims an interest in land, that claim is sufficient to cloud title and operates as a present cloud on title for as long as the United States retains authority to assert its claim.

123. The United States has taken several actions that constitute their "claim of interest" in the rights-of-way at issue, as explained in detail below. Therefore, a cloud on title exists with respect to each of the rights-of-way claimed herein and the Quiet Title Act is the proper mechanism for adjudicating and quieting title.

124. A court of equity has jurisdiction both to prevent the casting of a cloud on title to property and to remove an existing cloud.

125. To eliminate a cloud on title arising out of the United States' asserted claim, and to unilaterally destroy jurisdiction of any such a claim, the United States may file a disclaimer under section (e) of the QTA, which provides that

> [i]f the United States disclaims all interest in the real property or interest therein adverse to the plaintiff at any time prior to the actual commencement of the trial, which disclaimer is confirmed by order of the court, the jurisdiction of the district court shall cease unless it has jurisdiction of the civil action or suit on ground other than and independent of the authority conferred by section 1346(f) of this title.

126. On June 14, 2000, the State of Utah sent a Notice of Intent to Sue ("2000 NOI") to the Secretary of the Interior indicating its intent to file suit to quiet title to roads over R.S. 2477 rights-of-way throughout Utah. Along with the NOI, the State included maps depicting the claimed roads in each county.

127. After filing the 2000 NOI, and between 2006 and 2011, the State of Utah recorded all Class B roads in the State, including those in San Juan County. The recording documents included legal descriptions of the roads, maps, affidavits of historical use, and other identifying information regarding the claimed roads over the R.S. 2477 rights-of-way.

128. The State filed the recording documents with the BLM.

129. In response, the BLM failed and refused to recognize any of the R.S. 2477 rights-of-way in any administrative proceeding or to issue any non-binding determination with respect to any of the roads over R.S. 2477 rights-of-way.

130. In 2011, the State of Utah amended and sent to Secretary Salazar a supplementary set of NOIs ("2011 NOIs")—one NOI for each County that claims roads over R.S. 2477 rights-

of-way in the State. The 2011 NOIs provided County-specific, detailed information regarding those roads.

131. The 2011 NOIs also included detailed county maps, legal descriptions of each road, and affidavits of witnesses attesting to the location and use of the R.S. 2477 rights-of-way at issue in San Juan County.

132. The DOI has failed to file a disclaimer of interest with respect to the 2000 NOI, 2011 NOIs, or the claims of the State of Utah and San Juan County with respect to the roads over R.S. 2477 rights-of-way at issue herein.

133. Because the DOI has failed to respond to the claims asserted by the State of Utah and San Juan County, the ownership, existence, scope, and location of the roads over the R.S. 2477 rights-of-way claimed by the State of Utah and San Juan County remain in dispute.

C. The Specific Case or Controversy Caused by The Department of Interior's Actions Adverse to All of Plaintiffs' Claimed Rights-of-Way in this Case

134. In 1996, Southern Utah Wilderness Alliance ("SUWA") commenced an action initially against BLM and San Juan County, a Utah county, to require BLM to take action against San Juan County to prevent certain grading activities by the County. *See generally SUWA v. BLM*, 425 F.3d 735 (10th Cir. 2005).

135. Kane and Garfield Counties, also counties in the State of Utah, were ultimately added as defendants for grading activities undertaken in those counties.

136. BLM cross-claimed against San Juan, Garfield, and Kane counties for trespass in grading some of the county roads crossing public lands.

137. In doing so, BLM claimed that regardless of any vested R.S. 2477 right-of-way, the counties could not regulate or maintain their roads without prior authorization from the BLM.

138. The district court rejected this argument and held that the existence of an R.S. 2477 right-of-way was key to resolution of the trespass claims. *See id.* at 743.

139. In response, BLM prevailed upon the district court to allow BLM to determine whether, in the first instance, the Counties owned an R.S. 2477 right-of-way for any of the roads graded. *See id.*

140. In 2005, after nine years of litigation, BLM's preemptive claim to the right to determine the existence of the Counties' R.S. 2477 rights-of-way was wholly rejected, as were the legal standards BLM asked the district court to adopt. *See id.* at 757.

141. The Tenth Circuit confirmed that the "holder" of an R.S. 2477 right-of-way may conduct routine road maintenance without prior approval of the BLM. *See id.* at 745.

142. In light of *SUWA v. BLM*, the DOI concluded that the "interim departmental policy on R.S. 2477, issued in 1997, must be revised." March 22, 2006 Memorandum from Secretary of Interior, Departmental Implementation of *Southern Utah Wilderness Alliance v. Bureau of Land Management,* 425 F.3d 735 (10th Cir. 2005); Revocation of January 22, 1997, Interim Policy; Revocation of December 7, 1988 Policy (2006 DOI Memo).

143. In the 2006 DOI Memo, the DOI acknowledged, that

> Although R.S. 2477 was repealed nearly 30 years ago, controversies continue to arise about the existence and scope of the rights-of-way it granted. R.S. 2477 has been subject to inconsistent judicial and administrative interpretations through its history. Because R.S. 2477 did not require that the rights-of-way be recorded or otherwise documented, it is often difficult for

> Federal land managers, State, local and tribal governments and public land users to know which right-of-way claims are valid, where they are located and how they may be used.

Id. at 2.

144. The 2006 DOI Memo included an "Attachment- Guidelines for Implementation of *SUWA v. BLM* Principles" (DOI Guidelines).

145. The DOI Guidelines, issued pursuant to the authority of the Secretary of the DOI, direct as follows:

> As the *SUWA v. BLM* court noted, ultimately deciding who holds legal title to an interest in real property, including an R.S. 2477 right-of-way, 'is a judicial, not an executive function.' 425 F.3d at 753. Thus if a claimant seeks a definitive, binding determination of its R.S. 2477 rights, it must file a claim under the Quiet Title Act, 28 U.S.C. § 2409a.

Id. at 6.

146. The DOI Guidelines further direct that the BLM should gather information and "decide 'on a preponderance of the evidence standard' if it supports the existence of a right-of-way under State law in effect prior to the repeal of R.S. 2477." *Id.*

147. The DOI Guidelines specify that

> The inclusion of a highway in a State, county or other local road system is strong evidence of acceptance of the federal grant of a right-of-way, as is the expenditure of money for construction or maintenance. In some States, official action may even be determinative. These facts may also be helpful in determining whether the claimed right-of-way was public in nature.

Id. at 9.

148. On March 22, 2006, in connection with the issuance of the 2006 DOI Memo, the DOI drafted and issued its own press release entitled "Interior Department Announces Guidelines to Implement Court Decision on R.S. 2477." ("DOI Press Release").

149. The DOI Press Release stated the following:

> R.S. 2477 granted rights-of-way for public use across federal land prior to 1976, when Congress repealed the law. Congress specified that any valid R.S. 2477 rights-of-way existing at the time of the repeal would continue in effect. **This has resulted in considerable doubt as to whether counties or the federal government own certain roads on federal lands.**

Id. (emphasis added).

150. The DOI Press Release further acknowledged and recognized that, "[i]n *SUWA v. BLM*, the 10th Circuit clarified that only courts could finally determine the ownership issue, but that federal agencies are permitted to develop a process to analyze claims for administrative purposes." *Id.*

151. The DOI Press Release further acknowledged and stated that "where a claimant seeks a binding determination of a claimed right-of-way, the claimant may file a quiet title action. A court would then make a determination." *Id.*

152. The 2006 DOI Memo also terminated a Memorandum of Understanding dated April 9, 2003 between the Department of Interior and the State of Utah regarding an acknowledgement process for R.S. 2477 rights-of-way (the "MOU").

153. According to a DOI Press Release dated April 9, 2003 and prepared by a spokesperson for the DOI, the MOU recognized "the uncertainty about existing rights-of-way

claims on federal land … and [was negotiated to establish] … a process to resolve many of the long-standing disputes over Revised Statute 2477 (R.S. 2477) existing rights-of-way in Utah."

154. The DOI April 9, 2003 Press Release quoted DOI Secretary, Gale Norton, who acknowledged that "[i]t's time to move forward and, by working collaboratively with the state of Utah, we are able to resolve a long-disputed issue that may otherwise have lead [sic] to costly and lengthy litigation."

155. The MOU provided that DOI would implement a "State and County Road Acknowledgment Process" to "acknowledge the existence of certain R.S. 2477 rights-of-way on [BLM] land within the State of Utah," and outlined the process DOI was to use to make such acknowledgments.

156. The MOU implicitly, and the DOI April 9, 2003 Press Release explicitly, recognized that there were continuing controversies regarding the ownership, existence, location, and scope of R.S. 2477 rights-of-way.

157. The MOU recitals included background of the R.S. 2477 disputes and highlighted—as the existence of the ongoing issues and disputes between the State of Utah and the federal government:

a. In a Report to Congress prepared in June of 1993, the Department of the Interior explained that unresolved conflicts over the status of rights-of-way created pursuant to Revised Statute 2477 were creating a continuing cloud on Federal agencies' ability to manage federal lands.

b. On August 7, 2002, a bipartisan group of eight western governors wrote urging the Department of the Interior to "bring finality to R.S. 2477 disputes in a cooperative manner."

c. On July 16, 2002, the National Association of Counties adopted a resolution urging the Department of the Interior to adopt a policy approach to R.S. 2477 rights-of-way that would allow counties to maintain historical rights-of-way across federally managed lands.

d. Disputes involving R.S. 2477 rights-of-way have generated numerous expensive and inconclusive federal court lawsuits that have left numerous questions concerning the ownership status of R.S. 2477 rights-of-way unresolved; and the high cost of this litigation has made it difficult for states and counties to assert their rights and for conservation groups to assert their interests.

e. The Department of the Interior has traditionally approached R.S. 2477 issues by trying to define the precise legal limits of the original statutory grant.

f. Most of the asserted R.S. 2477 rights-of-way that actually have been part of western states inventoried and maintained transportation infrastructure since before the enactment of the Federal Land Policy and Management Act (FLPMA) in 1976 satisfy the statutory requirements of "construction" and "highway" under almost any interpretation of those statutory terms.

g. The State of Utah has many R.S. 2477 claims, and on June 14, 2000, sent to the Secretary of the Interior a Notice of Intention to File Suit under 28 U.S.C.§2409a(m) to quiet the title to those claims.

h. The roads in which the State of Utah and Utah counties assert claims include many roads of continuing importance to rural transportation.

i. Rights-of-way granted under R.S. 2477 are vested property rights that cannot be eliminated or diminished without due process. However, the statutory grant of the rights-of-way did not require the issuance of an identifying record, such as a patent. The resulting uncertainty surrounding the identity and scope of R.S. 2477 rights-of-way has created unnecessary difficulties in federal, state and local transportation and land use planning decisions.

j. The State of Utah and Utah counties have spent considerable time and substantial resources to gather information about road claims and are prepared, if necessary, to litigate those claims.

k. Federal, state and local land managers and environmental advocacy organizations have all demonstrated a desire to put disputes surrounding R.S. 2477 to rest and move toward an approach to land management that emphasizes cooperation.

158. The termination of the MOU in 2006 once again made certain that R.S. 2477 rights-of-way in Utah would remain undetermined and in disputed status. That is, title would remain clouded.

159. With the termination of the MOU and in an attempt to resolve the ongoing dispute, beginning in 2006 and continuing through 2011, the State of Utah sent documentation of recordation to the BLM of each road that had been recorded in county recorder offices throughout Utah. These recorded roads were filed with the BLM on all Class B roads in San Juan County.

160. The BLM failed to evaluate the recordation documents and refused to recognize any road in San Juan County as a valid R.S. 2477 right-of-way. The BLM also failed to process any non-binding determinations.

161. On May 26, 2006, as directed by the 2006 DOI Memo, BLM issued IM No. 2006-161. *See Consultation on Proposed Improvements to R.S. 2477 Rights-of-way.*

162. IM No. 2006-161 described the process BLM was to follow when working on roads with "holders" of R.S. 2477 rights-of-way. BLM was to engage in

> consultation with the holder of an R.S. 2477 right-of-way (ROW), when the holder proposes to undertake any construction or improvement (collectively improvement), beyond routine maintenance, on any portion of the ROW crossing lands administered by the BLM.

Id.

163. IM No. 2006-161 did not define a "holder" of an R.S. 2477 right-of-way.

164. IM No. 2006-161 "[e]xpire[d]: 09/30/2007." *Id*.

165. On August 8, 2008, BLM issued IM No. 2008-175 which "clarifies and supplements the information set forth in IM No. 2006-161, and hereby replaces it." *Id.*

166. IM No. 2008-175 defines "holder" as

> (1) a state or political subdivision of a state that holds an R.S. 2477 ROW, as adjudicated by a Federal court, or (2) a state or political subdivision of a state claiming to have an R.S. 2477 ROW that has been recognized by the BLM in an administrative nonbinding determination (NBD).

Id.

167. IM No. 2008-175 states as follows:

> **Policy/Action**: Before the consultation process described in this IM may occur, the validity of an asserted ROW established under R.S. 2477 must have been adjudicated by a Federal court or recognized by the BLM in an NBD. IM No. 2006-159 (dated May 26, 2006), describes the process for the BLM to follow if it chooses to process an NBD on an asserted R.S. 2477 ROW.

Id.

168. IM No. 2008-175 further states that

> [i]f the validity of an asserted R.S. 2477 ROW has not been adjudicated as valid by a Federal court or recognized as valid by the BLM in an NBD, the entity asserting that it is the holder of the ROW may not undertake any improvement on the ROW. When an entity undertakes an improvement without such adjudication or NBD and, thus, has not been found to be a holder, the BLM may deem the action a trespass or take other appropriate action to protect the public lands and resources.

Id.

169. IM No. 2008-175 "[e]xpire[d]: 09/30/2009." *Id.*

170. It is the custom and practice of BLM to continue to act in accordance with the directives of an IM, including IM No. 2008-175, after its stated expiration date until the issuance of a supplement or replacement IM.

171. The DOI continues to act in accordance with the directives states in IM No. 2008-175. On August 8, 2008, BLM also issued IM No. 2008-174 entitled "Road Maintenance Agreements, " which provides that

> . . . under the principles set forth in *SUWA v. BLM*, the holder of an R.S. 2477 that has been adjudicated in Federal Court or recognized by the BLM in an administrative nonbinding determination may undertake routine maintenance on the ROW without first consulting with the BLM regarding such activities.

Id.

172. IM No. 2008-174 "[e]xpire[d]: 9/30/2009." *Id.*

173. The DOI continues to act in accordance with the directives stated in IM No. 2008-174.

174. A Federal Court has not adjudicated either the State of Utah or San Juan County to be a "holder" of any of the R.S. 2477 rights-of-way claimed by the Plaintiffs herein.

175. The R.S. 2477 rights-of-way claimed by Plaintiffs herein have not been recognized by the BLM in an administrative non-binding determination.

176. IM Nos. 2008-175 and 174 are regulations issued by the BLM and the DOI that prohibit routine maintenance on R.S. 2477 rights-of-way that have not been adjudicated or recognized by the BLM in a nonbinding determination.

177. Because there has been no adjudication or recognition of the R.S. 2477 rights-of-way at issue in this case, neither the State of Utah nor San Juan County are "holders" as defined by the BLM and are, therefore, prohibited by the regulations of the BLM from performing routine maintenance on the R.S. 2477 rights-of-way at issue herein.

178. IM No. 2008-175 and 174 contradict the holding of *SUWA v. BLM* and violate the rights of the State of Utah and San Juan County specifically recognized therein.

179. IM No. 2008-175 also references the BLM "2800 series Manual/Handbook" (the "BLM Manual"), which—in its glossary of terms—defines "holder" as "any entity to whom the BLM has issued a ROW grant."

180. Because the State of Utah and San Juan County are not "holders" as defined by the BLM, they have only two options: (1) fail to maintain the roads over R.S. 2477 rights-of-way, thus creating dangerous driving conditions, or (2) perform routine maintenance at their own risk, subjecting themselves to possible trespass actions by BLM.

181. Additionally, without a determination of their ownership rights or status as "holders," the State of Utah and San Juan County, are unable to make budgetary and economic determinations regarding those roads that can be routinely maintained.

182. Certain roads become impassable and dangerous without maintenance.

183. The BLM Manual also provides as follows:

> As to grants issued on or before October 21, 1976, under then existing statutory authority, this manual/handbook/IM series applies to the extent that it does not diminish or reduce any rights conferred by the grant or the statute under which they were issued. Where there is a reduction, the grant or enabling statute will apply instead of the manual.

BLM Manual 2801.6.C.

184. The BLM Manual states the general policy of BLM:

> G. Prior Authorizations/Existing Uses. Such uses should be serialized and noted to the public land records for informational purposes.
>
> 1. Pre-FLPMA. Recognize as an authorized use, any ROW facility constructed on public land on or before October 21, 1976, under the authority of any act repealed as to future authorization by FLPMA. No further authorization is required by the holder for the following:
>
> a. ***
>
> b. A ROW for a public highway constructed on public land under R.S. 2477 (43 U.S.C. 932, repealed 1976).

BLM Manual 2801.8.G.1.b.

185. The BLM Manual further states:

> A. Types. The pre-FLPMA ROW laws consist of two types:
>
> 1. Discretionary. Those where the Secretary decided whether to issue a ROW, and
>
> 2. Ministerial. Those that were granted by the Congressional Act and the Secretary had no more than a ministerial duty. It is this type of pre-FLPMA ROW with which we are most concerned.
>
> B. Regulations. Prior and current regulations shall be utilized to the extent they do not impair the rights of the holder. Regulations involving procedures such as abandonment and termination activities or methods of review of proposed major maintenance or reconstruction generally do not impair rights so long as the BLM acts promptly.

BLM Manual 2809.20, Special Considerations.

186. The BLM Manual further states:

> .21 R.S. 2477, Highway ROW. This is an 1866 Act (14 Stat. 253) granting the ROW for the construction of highways over public land not reserved for a public use. No action by the Secretary was involved in the grant, although there have been occasions where the Secretary had opened otherwise unavailable land to the operation of R.S. 2477.
>
> ***
>
> 6. Reasonable Regulations [governing ROWs] are those which do not:
>
> a. Impair rights the holder had under the pre-FLPMA law and regulations in effect at the time of the ROW grant, or
>
> b. Increase the holder's liability for past conduct, or
>
> c. Impose new duties to transactions already completed.

BLM Manual 2809.21.A.6, Special Considerations.

187. The BLM Manual further states:

> 1. FLPMA ROW. Because the legally binding determination of whether a R.S.2477 ROW exists is a judicial one, the BLM should encourage and assist claimants to obtain a ROW pursuant to FLPMA or similar authority

BLM Manual 2809.21.B.1, Special Considerations.

188. The actions of BLM and DOI as alleged herein violate the stated policy of the BLM as set forth in the BLM Manual.

189. On February 20, 2009, DOI Acting Director Ron Wenker issued a Memorandum ("Wenker Memo") to all BLM State Directors stating that, "[p]ending further review and direction from the Secretary, the Bureau of Land Management has been directed not to process or review any claims under R.S. 2477, including the use of the disclaimer rule."

190. No notice, explanation, publication, fact finding or opportunity for comment or hearing was given with regard to the policy announced by the Wenker Memo.

191. The Wenker Memo stated that the "interim step" outlined therein was "designed to preserve the status quo and is not a final policy decision on R.S. 2477 Claims." However, since the issuance of the Wenker Memo in February of 2009, the policy stated therein has been followed by the BLM.

192. In accordance with the Wenker Memo, with the exception of a legal action being commenced by the State of Utah or a County of the State of Utah, the federal government has not reviewed or processed any claims under R.S. 2477 since February of 2009.

193. DOI's actions also have recently sparked numerous public highway lawsuits across the western states. DOI solicitors and BLM managers have decided that Plaintiffs have no rights, title, or interest in these public highways crossing federal land unless and until Plaintiffs' rights-of-way are adjudicated in court.

194. San Juan County is the local highway regulatory authority and has the right to manage and regulate its roads, including the right to adopt ordinances regulating all forms of public motor vehicle travel on its roads. *See* UTAH CODE ANN. § 17-50-309 (2009).

195. San Juan County is the highway authority with jurisdiction of county roads and is statutorily authorized to place numbering signs, markers, and traffic control signs along its roads. *See* UTAH CODE ANN. §§ 41-6a-208(1) and -102(63) (2010). "[I]nstalling, maintaining, repairing and replacing road signs" is statutorily defined "maintenance" within the County's lawful governmental authority. *See* UTAH CODE ANN. § 72-5-301(5)(p) & (s) (2004).

196. DOI officials have admitted that the DOI is regulating the roads at issue in this lawsuit as DOI roads, and that DOI is responsible for the roads until Plaintiffs' title is confirmed.

197. Despite the DOI's claims, it refuses to pay to maintain the roads or clear snow from them.

198. The BLM, in particular, has refused to use its own funds to repair and maintain the roads and has ignored the widespread public safety hazards directly caused by its recent claim to own the rights-of-way over the roads.

199. Plaintiffs are informed and believe that BLM has significantly reduced the number of instances it grades roads each year in the State of Utah and San Juan County.

200. Plaintiffs are further informed and believe that BLM has significantly reduced the number of road miles graded and maintained by the BLM in the State of Utah and every year since the passage of FLPMA.

201. Since 2005, the DOI has denied that Plaintiffs have any rights, title, or interest to any road crossing federal land unless and until Plaintiffs have first proven their ownership in court, including the roads in this case.

202. Plaintiffs must confirm their title to the roads in this case so that the County can safely maintain these roads as part of its public highway transportation system and regulate and maintain them as county roads.

203. Certain roads have fallen into disrepair without San Juan County's maintenance; and both the public and BLM employees have complained of safety hazards, precipitous headcutting, washboards, and entire washouts on many of the roads in this case.

204. Upon confirmation of Plaintiffs' title, the County will immediately resume routine maintenance, repair, and management of any relevant roads.

205. After taking the adverse actions complained of herein, the DOI has stated that the door is wide open for Plaintiffs to come to court to prove their claims and establish their rights.

206. In fact, the BLM's State Director recently testified that it is time to have Plaintiffs' rights-of-way decided.

207. In November of 2005, Kane County filed suit against the DOI (and BLM) under the Administrative Procedures Act, 5 U.S.C. § 551 et seq., and challenged the transportation provisions of the Monument Plan as being arbitrary and capricious. *See Kane County v. Kempthorne*, 495 F. Supp. 1143 (D. Utah 2007), *aff'd* 562 F.3d 1077 (10th Cir. 2009) ("Monument lawsuit").

208. Kane County claimed that the DOI could not restrict, manage, or close Kane County's public highways until after DOI first determined that its actions would not impair Kane County's valid existing rights in its R.S. 2477 public highway rights-of-way. *See Id*.

209. In response, the DOI argued that Kane County lacked standing and could not claim any injury in fact relating to any R.S. 2477 right-of-way until after it had first quieted title to each right-of-way.

210. As expressly stated by the DOI, Kane County had nothing more than "unproven" assertions, not vested R.S. 2477 rights-of-way within the Monument. *See id.*

211. The Court agreed and held that as a matter of sequence, Kane County must quiet title to its rights-of-way before it could challenge DOI's road management actions. *See id.*

212. Although the Tenth Circuit vacated the ruling on the ground that plaintiffs lacked standing, the underlying analysis went unaddressed.

213. The ongoing controversy caused by the DOI will be resolved by this Court's order quieting title to the rights-of-way for the roads claimed herein.

214. On or about February 17, 2012, as a result of the above concerns, the State of Utah, through the Public Lands Policy Coordinator, Kathleen Clarke, sent a letter to Juan Palma, the Utah State Director of the BLM.

215. This letter notified the BLM that the State and Counties would begin maintenance and repair on Class B and D roads statewide and that this maintenance would include, as needed, going outside the disturbed width of roads, but within the statutory right-of-way under Utah law of 66 feet for class D roads and 100 feet for class B roads.

216. On March 1, 2012, Larry Jensen, Department of Interior Regional Solicitor, wrote a letter seeking clarification of the State and Counties position on certain aspects of the letter and stating that

> some activities described in the letter— i.e., "widening and straightening of various road segments" and the collection of fill material from outside the disturbed area **but within the right-of-way**"–fall, in my opinion, squarely within the 10th Circuit's definition of "improvement" or "construction," and are the types of activities on which consultation is required before the State and the Counties can proceed. (Emphasis added).

217. In April 2012, Utah State BLM Director Juan Palma delivered a draft of a letter to Utah Public Lands Policy Coordinator Kathleen Clarke in which he stated that the BLM did not

concede that Utah could undertake the actions detailed in its letter without prior consultation with the BLM.

218. The DOI's actions have clouded Plaintiffs' title to their R.S. 2477 rights-of-way for the roads claimed herein and constitute claims adverse to Plaintiffs' interests.

219. The DOI's deliberate actions have created legal liability for San Juan County, clouded Plaintiffs' title to these rights-of-way, impaired San Juan County's regulatory authority, and placed the traveling public at risk.

220. During the last twelve years, the actions of the United States and its agencies have clouded Plaintiffs' title and created a case or controversy regarding Plaintiffs' rights of ownership, maintenance, and regulation of the public highway rights-of-way claimed herein.

221. The BLM refused to acknowledge Plaintiffs' right, title, and interest in these R.S. 2477 rights-of-way in the Monticello and Moab RMPs, and the BLM directed the State and County to first prove their title in Court before the BLM would reevaluate its travel plan.

222. In response to San Juan County's claims of ownership of these rights-of-way, the RMP finalized by the BLM covering San Juan County provides that the RMP does not alter or extinguish any valid R.S. 2477 rights that the County or individuals may have, or their right to assert and protect R.S. 2477 rights, and to challenge in Federal court or other appropriate venue any restrictions that they believe are inconsistent with their rights. *Id*.

223. The BLM has refused to acknowledge any right, title or interest of San Juan County in the rights-of-way for these roads until this Court quiets title to the rights-of-way.

224. The BLM's actions in implementing and enforcing the Monticello and Moab RMP's transportation decisions and the subsequent road closures have excluded San Juan County from the peaceful enjoyment and regulatory authority of each of the roads pleaded herein and clouded title to all roads in the area subject to the Travel Management Plan.

225. Despite the State of Utah and San Juan County's diligent efforts to work with the BLM to resolve numerous road management needs, the BLM wholly refuses to acknowledge the State and County's right, title, and interest in each of the roads until confirmed by this Court.

226. Furthermore the United States and its agencies' actions have impeded San Juan County's ability to undertake construction and maintenance on the roads that exist over the rights-of-way claimed herein.

227. Pursuant to the Quiet Title Act, Plaintiffs are entitled to confirm their ownership of the rights-of-way claimed herein to ensure that State and County funds are spent to regulate and maintain Plaintiffs' public highways and to define the relative parties' rights, title, and interest to avoid future trespass actions.

228. Plaintiffs are further entitled to confirm their ownership of the rights-of-way claimed herein to ensure that the United States and its agencies will change their current practices and comply with their statutory obligation to administer federal lands subject to Plaintiffs' valid existing rights.

FIRST CAUSE OF ACTION – QUIET TITLE
ALKALI POINT AREA

229. Plaintiffs reallege and incorporate herein each of the foregoing paragraphs.

230. The Alkali Point Area is located in east-central San Juan County and is shown on Exhibit 3, attached hereto and incorporated herein.

232. Each right-of-way claimed in the Alkali Point Area was used by the general public who engaged in one or more of the following activities: cattle ranching, sheep herding, prospecting for minerals, rock hounding, mining, oil and gas exploration, wood gathering, cutting wood, collecting pine nuts or berries, recreation, hunting, trapping, government access,

traveling in and through the area, or any other legitimate purpose.

233. All rights-of-way claimed in the Alkali Point Area are sufficient in scope for general motor vehicle travel and include that which is reasonable and necessary to meet the exigencies of motor vehicle travel according to safe engineering practices that protect the public and the road and also prevent undue degradation of the adjacent land.

234. All rights-of-way claimed in the Alkali Point Area include a minimum right-of-way width of 66 feet or greater width as determined at trial, along with cuts, fills, slopes, water bars, and such features and facilities as have historically been acknowledged by the DOI and under law as being reasonable and necessary for the use, benefit, and enjoyment of public highway rights-of-way. *See, e.g.,* UTAH CODE ANN. § 72-5-302(4)(b) (2003).

235. Prior to October 21, 1976, the State of Utah, San Juan County, and the public through continuous use, accepted the congressional grant of an R.S. 2477 right-of-way for the entire length and course of all roads as described herein, on public lands owned by the United States.

238. In this action, the State and County seek to quiet title to the public highway right-of-way for the Alkali Point Road solely as it crosses United States public land as included and specifically described in Exhibit 28. The Alkali Point Road includes the segment of road specifically set forth in Exhibit 28 and as exists on the ground.

Acceptance of the Alkali Point Road R.S. 2477 Right-of-way Prior to October 21, 1976

239. The Alkali Point Road has long served as a public highway providing access to and across public land. This road serves the public's transportation needs.

240. Aerial photography from 1975 confirms the historical use, existence, and acceptance of the right-of-way for the Alkali Point Road as a public highway located on the land at issue in this case and following the course described herein. More recent aerial photography continues to show the road as it existed prior to October 21, 1976.

241. The appearance of the Alkali Point Road on the Blanding North (1957), Devil Mesa (1954), and Bradford Canyon (1954) USGS 7.5-minute quadrangle maps, and the Blanding (1957) USGS 15-minute quadrangle map evidences the existence, use, and acceptance of the right-of-way underlying this road. *See* Exhibit 27 for more detailed map information.

242. The County confirmed its acceptance of the Alkali Point Road by 1974, when it designated and accepted the road as a County highway on the County's general highway map. 248. The State and County are entitled to an order quieting title to their R.S. 2477 right-of-way for the Alkali Point Road on lands owned by the United States as described herein and including that which is reasonable and necessary for the use, benefit, and enjoyment of this road.
