2477 Road Acceptance PAGE 1 / 26

CRAIG J. SPERRY, JUAB COUNTY RECORDER

FEE \$ 0.00 BY STATE OF UTAH PUBLIC LANDS

**Acknowledgment and
Notice of Acknowledgment
of Acceptance of R.S. 2477
Right-of-Way Grant**

THE STATE OF UTAH

TO ALL WHOM THESE PRESENTS SHALL COME, Greeting:

Know ye, This is an Acknowledgment and Notice of Acknowledgment made under Utah Code Sections 72-5-309 through 310 inclusive, that the grant of the United States of America of “the right of way for the construction of highways over public lands, not reserved for public uses” under United States Revised Statutes 2477 (43 U.S.C. Section 932 (repealed October 21, 1976, with proviso recognizing the validity of rights-of-way already established)) was accepted for and on behalf of the State of Utah and its political subdivision Juab County as it pertains to the highway located in Juab County known as TOM'S CREEK ROAD; County Road Number: 17110802; State Geographic Information Database (SGID) Road Identification Number: RD121065. Total road length is 10.23 miles more or less.

The reason for this Acknowledgment and Notice of Acknowledgment includes, but is not limited to, the fact that the road was constructed, mechanically, or by continuous use as a public highway for a period of at least ten years, over public lands not reserved for public uses, prior to the earlier of (a) the October 21, 1976 repeal of R.S. 2477 or (b) the date the servient estate was reserved for public uses.

This Acknowledgment and Notice of Acknowledgment applies only to the segments of the road that traverse land owned by the Bureau of Land Management, United States Department of the Interior, and does not apply to segments of the road that traverse land owned by any other person or entity. The State of Utah and its political subdivisions reserve the right to make further acknowledgments and notices of acknowledgment with regard to road segments that traverse land owned by other entities, including the United States of America, through one or more of its agencies.

A printed copy of a map showing the location of the road in said county is appended hereto as “Attachment 1,” a printed copy of representative photos of the road is appended hereto as “Attachment 2,” a printed copy of a description of the beginning and ending points of the entire road together with a list of Townships, Ranges and Sections that may be traversed by the road in said county is appended hereto as “Attachment 3,” and a printed copy of the Road Centerline Description Cover Page(s) is appended hereto as “Attachment 4.” The Appendices listed in “Attachment 4” that contain the actual road centerline descriptions are incorporated herein by reference. Affidavits provided by individuals familiar with the road are appended hereto as “Attachment 5.”

A printed copy of this Acknowledgment and Notice of Acknowledgment, together with its Attachments and Appendices, may be viewed and/or obtained at the office of the Utah State Archives.

An electronic copy of this Acknowledgment and Notice of Acknowledgment, together with its Attachments and Appendices, may be viewed and/or downloaded as read-only PDF (Portable Document Format) files via the

Internet at <http://recorded2477roads.utah.gov>.

The owner of the servient estate in the land underlying the road-segments subject to this Acknowledgment and Notice is believed to be the United States of America through one or more of its agencies. Any of such agencies or any other person with a servient ownership claim or a competing dominant estate right-of-way ownership claim, may file a petition in the State District Court for Salt Lake County for a decision regarding the correctness of this Acknowledgment. A claimant shall file a petition within sixty (60) days after receipt of this Notice.

In Witness Whereof, I, John Harja, the official designee of the Governor of the State of Utah, in conformity to the laws of the State (Utah Code Sections 72-5-308 through 310 inclusive), have caused this Acknowledgment and Notice of Acknowledgment to be made.

Signed by my hand in Salt Lake City, Utah, the 13th day of January, 2009.

By the Governor's Designee

John Harja

CERTIFICATION

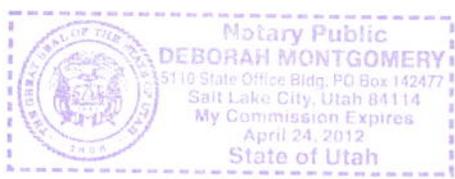

State of Utah)
 : ss
County of Salt Lake)

I hereby certify that the signer of the foregoing document, John Harja, is personally known by me, has made a voluntary signature and taken an oath stating that he is the official designee of the Governor of the State of Utah and is authorized to sign this document on the Governor's behalf pursuant to Utah Code Section 72-5-309. He further vouched that, based upon information and belief, the facts alleged therein are true.

Dated this 13 day of January, 2009.

County of Juab)

Tom's Creek Road

Leah L. Layland, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge.
2. I have observed Tom's Creek Road in Juab County since the 1920s and the road descriptions herein pertain to that road.
3. I am familiar with the indicated road because I have lived in the area since the 1920s and I am familiar with the area roads and their uses. I am particularly familiar with Tom's Creek Road and I have traveled it many times since I first used the road in 1920s.
4. It is the reputation in the community that this road was used by the settlers, ranchers, sheepmen, and others of Snake Valley since at least as early as the 1880s.
5. By reputation in the community, the early settlers of Callao, prior to my birth, dragged timber down Tom's Creek Road in order to build homes and barns.
6. My grandfather, Charlie, Stewart, homesteaded in Indian Farm Creek Canyon in about 1920. My father, Ephraim Lewis, my uncle, Don Shelden, and Joe Sabey all homesteaded in Tom's Creek Canyon at about the same time. They all accessed their homesteads using Tom's Creek Road. My father had a cabin, a barn, and corrals at his homestead. My grandfather was the only one that was finally able to prove up on his homestead.
7. Starting in the 1920s, my family spent portions of every summer at the homestead in Tom's Creek Canyon. When we first started going to the homestead, well before 1966, we traveled the road in horse-drawn wagons. Later, but still before 1966, we traveled the road on

Ford Farm tractors.

8. By reputation in the community, the residents of Snake Valley have used Tom's Creek Road since the early 1900s for ranching, homesteading, logging, accessing range lands, camping, hunting, fishing, recreation, and traveling in and through the area. Since the 1920s I have personally observed individuals using the road for hunting, fishing, farming, recreation, accessing homesteads, livestock management, wood gathering and traveling in and through the area.

9. By reputation in the community, the road has been open to the public for all to use, to come and go as they pleased, since the late 1800s. By my own observation since at least as early as the 1920s, the road was open to the public.

10. By reputation in the community, travelers on the road since the late 1800s and continuing thereafter included those who went by horseback and horse-drawn wagon. In more recent years, though still prior to 1966, I observed individuals using horses, trucks and tractors to travel the road.

11. By reputation in the community, construction and maintenance of the road since the late 1800s was performed by the residents of Callao and the surrounding area as needed to keep the road open and negotiable for its many uses. Besides passing horse-drawn wagons or livestock over the roadway, that maintenance included removing rocks and vegetation by hand labor. During my lifetime, but still prior 1976, local residents performed work on rock ledges in the roadway in order to permit trucks and other vehicles to travel the road.

12. When I first used and observed the road in the 1920s it ran the same route as it did when I last traveled the road in the early 1990s.

13. By way of further particulars regarding this right-of-way, it was about eight and a half miles long beginning at its intersection with the road sometimes referred to as the Callao-

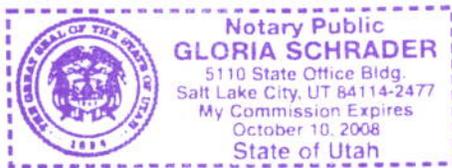

Trout Creek Road and ending at a point on the ridge overlooking the Goshute Indian Reservation and Ibapah valley. The leg extending from the main portion of Tom's Creek Road to Indian Farm Creek Canyon was approximately one and six-tenths miles long beginning at its intersection with the main portion of Tom's Creek Road and ending at a cabin in Indian Farm Creek Canyon. The surface of the road was native dirt and rock.

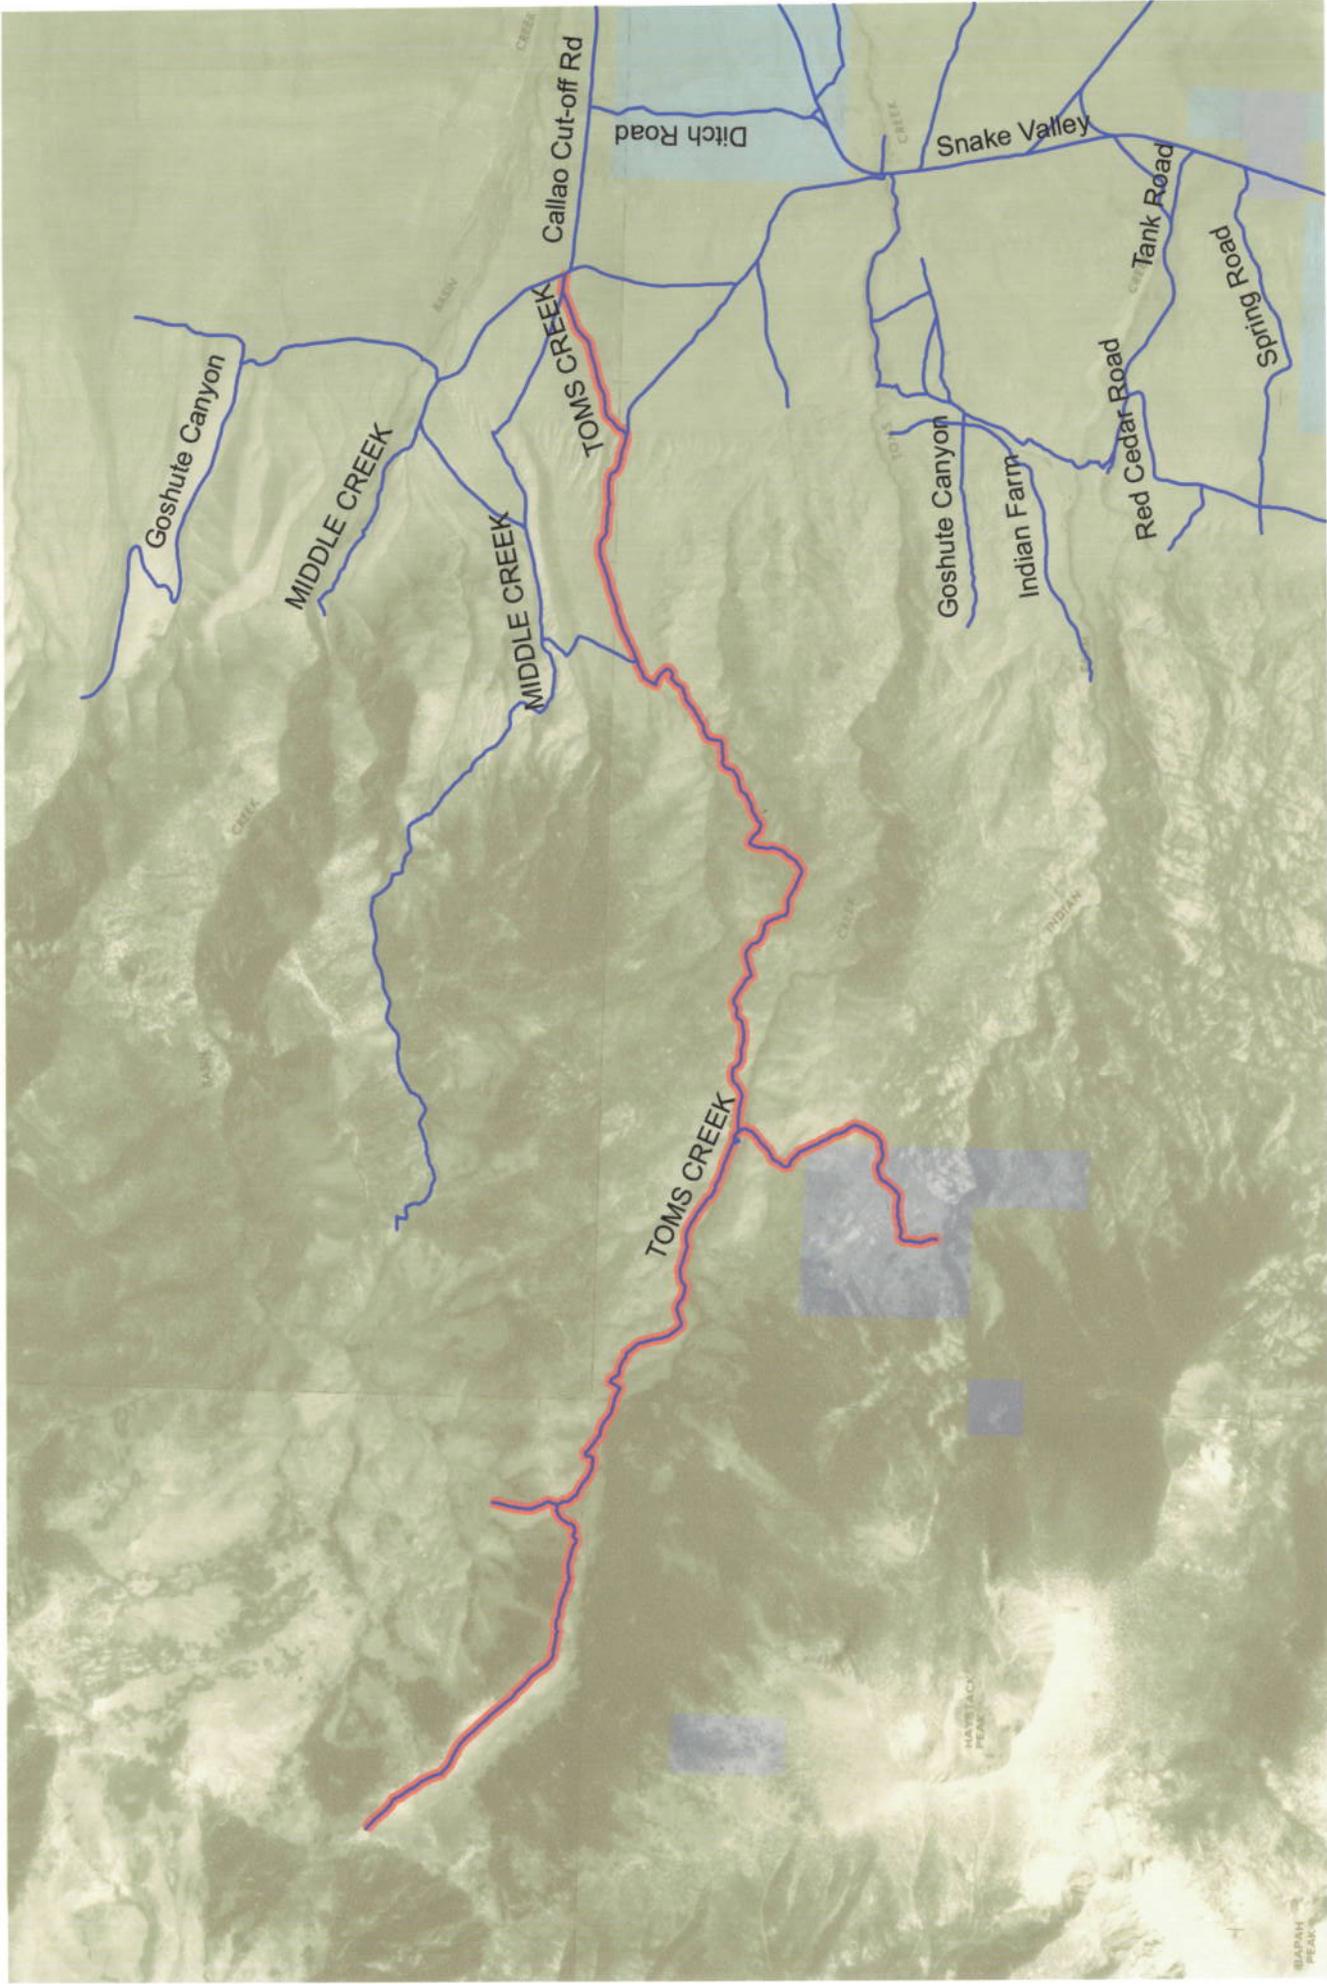

Dated this 11 day of August, 2005.

County of Juab)

Tom's Creek Road

Mark V. Tripp, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge.
2. I have observed Tom's Creek Road in Juab County since the 1920s and the road descriptions herein pertain to that road. (See incorporated exhibit attached.)
3. I am familiar with the indicated road because I have regularly traveled up and down Tom's Creek Road since I was a boy in the 1920s. My father, prior to 1966, used Tom's Creek Canyon, as well as Middle Canyon, for herding sheep and cattle up to the Basin. We also, in the years prior to 1966, used the road for packing salt up to our cattle.
4. It is the reputation in the community that this road was used by the settlers, ranchers, sheepmen, miners and others of Snake Valley since at least as early as the 1880s.
5. By reputation in the community, from the 1880s the road was open to the public for all to use, to come and go as they pleased. By my own observation since the 1920s, the road was open to the public for all to use, to come and go as they pleased.
6. By reputation in the community, beginning in the 1880s, the road was used for ranching (both sheep and cattle), homesteading, hunting, logging, camping, fishing, accessing range lands, recreation, law enforcement, and traveling in and through the area. By my own observation since the 1920s, the road was used for livestock management, hunting, fishing. In the late 1940s or early 1950s my colleagues and I used Tom's Creek Road while fighting wildfires.

7. Since the 1880s by reputation in the community travelers on the road included those who went by horseback, horse-drawn wagon. By my own observation since the 1920s, travelers on the road included those who went by automobiles, and trucks.

8. By reputation in the community, there were two sawmills in Tom's Creek Canyon prior to 1900. By that reputation, one sawmill was located just above Ephraim Lewis's cabin in Tom's Creek Canyon. By that reputation, the other sawmill was located just below Ephraim Lewis's cabin. I have seen the ditch located at this second sawmill and it is still visible today.

9. By reputation in the community, several families homesteaded in Tom's Creek Canyon and Indian Farm Creek Canyon in the 1920s. By that reputation, Charlie Stewart, his sons-in-law, Ephraim Lewis and Don Sheldon, and his wife's nephew, Joe Sabey, all homesteaded in that area and built cabins at each location. By that reputation, Charlie Stewart homesteaded in Indian Farm Creek Canyon and accessed the homestead using the Tom's Creek Road. By that reputation, Joe Sabey and Ephraim Lewis homesteaded in Tom's Creek Canyon west of the fork going to Indian Farm Creek Canyon.

10. In the early 1970s I observed a car parked at the fork going over to Indian Farm Creek Canyon. The road was in good enough condition that the car had made it up that far into Tom's Creek Canyon with some help from my sons who pulled the car over some rough spots.

11. By reputation in the community, since the 1880s construction and maintenance of the road was performed by workers at the sawmills and by residents of Callao (formerly Willow Springs) and the surrounding area as needed to keep the road open and negotiable for its many uses. By that reputation this maintenance included removing rocks and vegetation by hand labor, passing horse-drawn wagons or livestock over the roadway, or some combination thereof. Since at least as early as the 1930s my family and I performed hand maintenance on this road using

picks and shovels to repair washouts and removing rocks from the roadway.

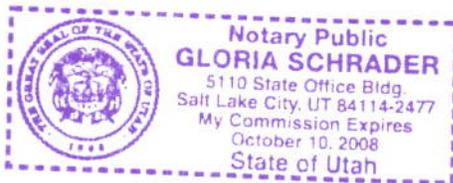

12. By way of further particulars regarding Tom's Creek Road, the main portion of the road began at a point where it intersected the Callao-Trout Creek road and ended at a point on the ridge overlooking the Goshute Indian Reservation and Ibapah Valley. A leg of the road extends from the main portion of Tom's Creek Road to Indian Farm Creek Canyon and ends at a cabin in Indian Farm Creek Canyon. The actual traveled portion of the road was approximately fifteen feet wide for most of its length, but ranged from fifteen to twenty feet in width. The surface of the road was native dirt and rock.

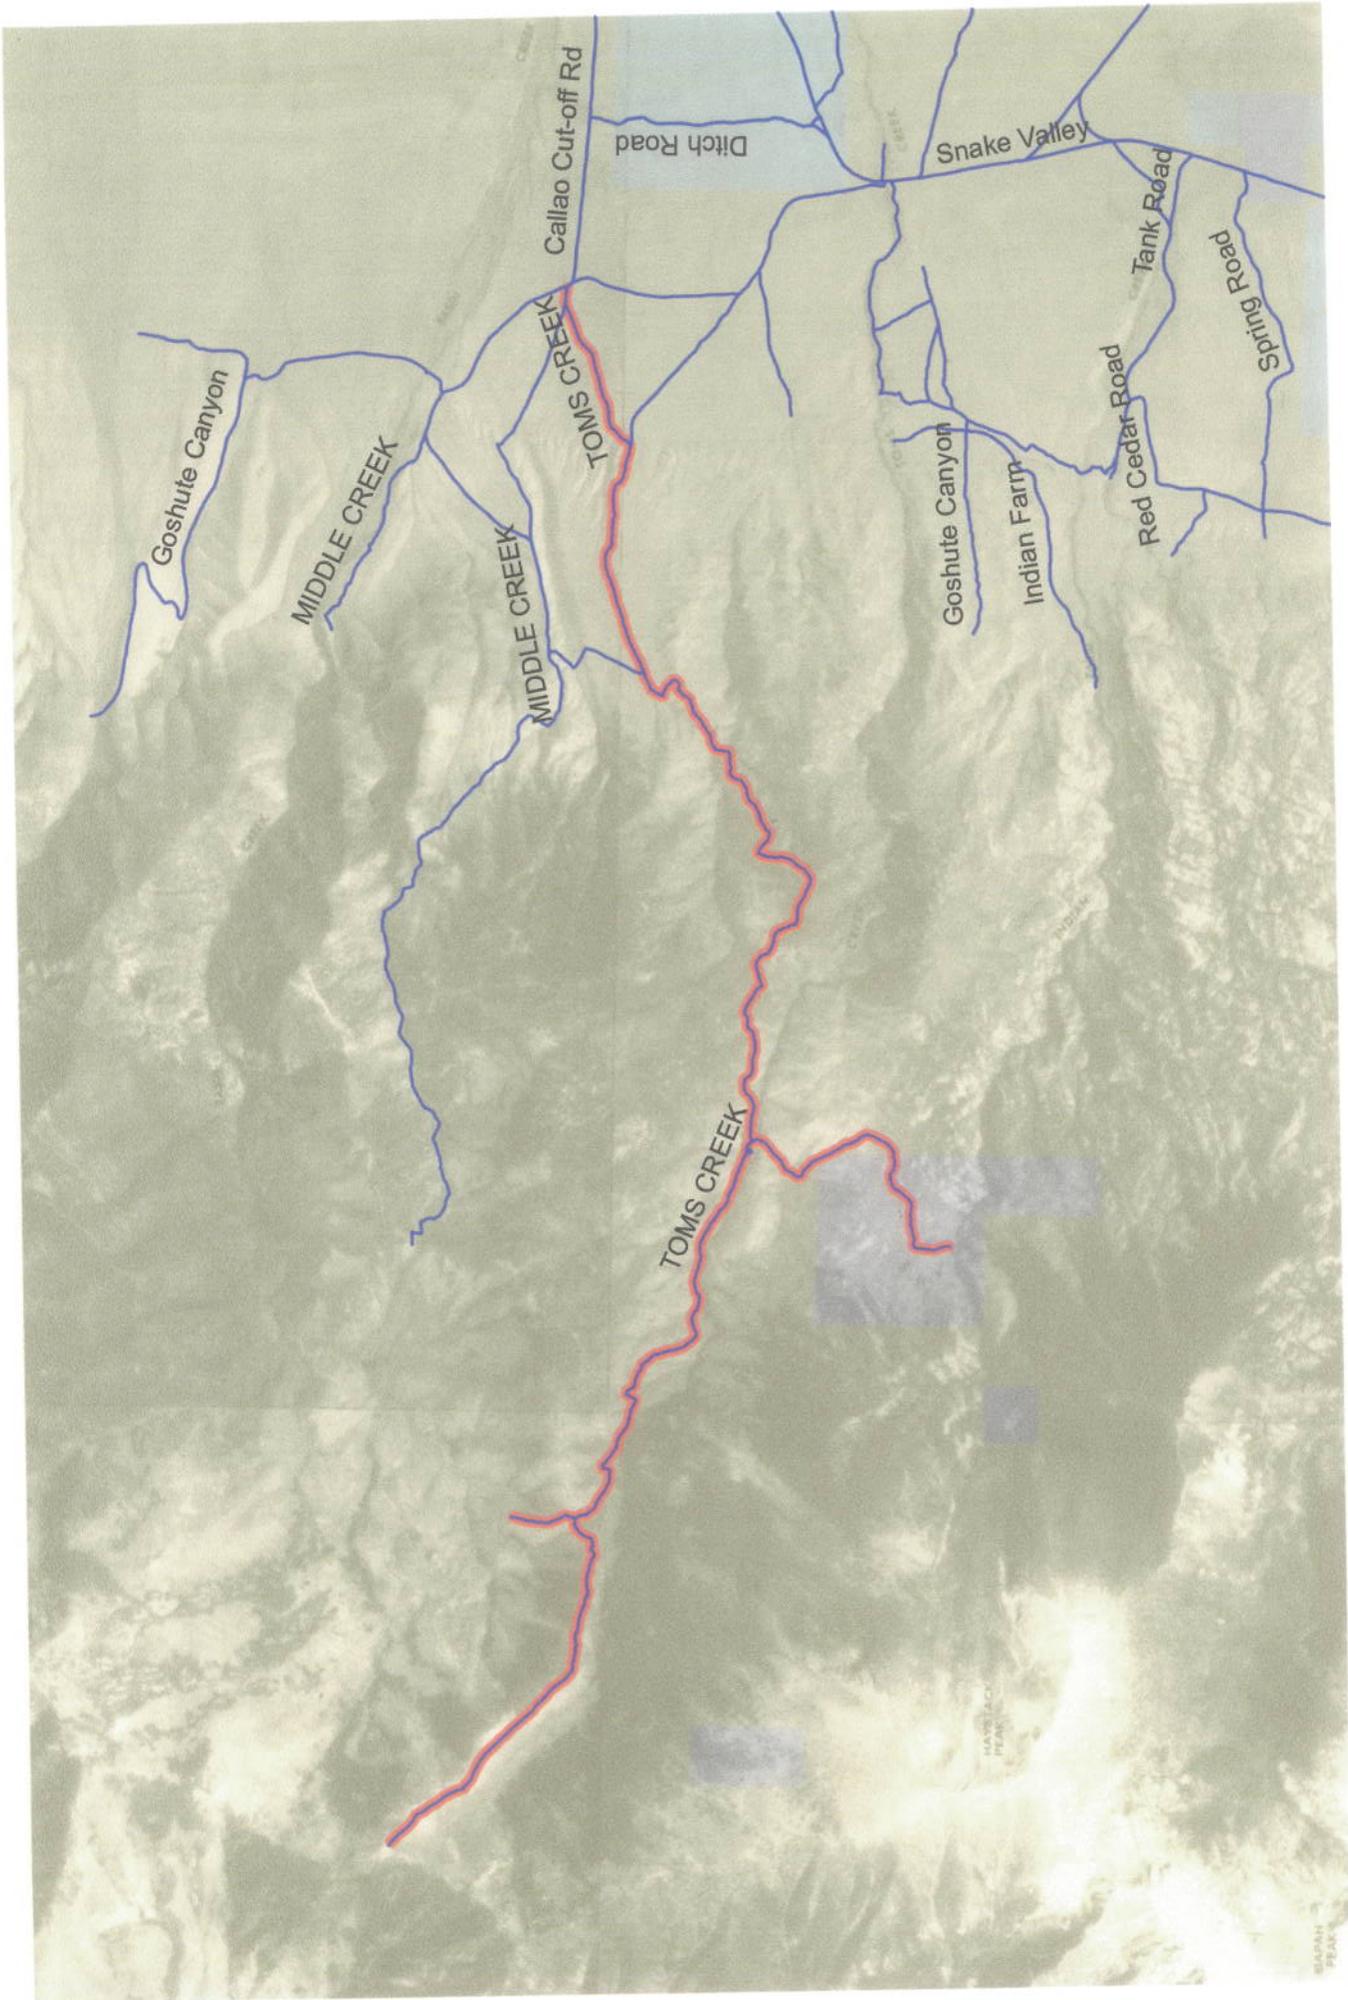

Dated this 11th day of August, 2005.

County of Juab)

Tom's Creek Road

Robert L. Steele, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge.
2. I was born in 1936 and was raised in Juab County. I have been involved in mining and prospecting throughout the County all of my life, as was my father. Since my childhood I have prospected, mined, trapped, or hunted in just about every square mile of the County. I first traveled Tom's Creek Road in the 1940s and I have traveled the road on numerous other occasions prior to 1966.
3. I have been a county commissioner for Juab County from January 1999 to the present, and because of that position I have acquired increased familiarity with Juab County's construction and maintenance activities on Tom's Creek Road.
4. I or my staff have familiarity with the records and historical activities of the county and people of the county regarding the road subject to this affidavit, and I am familiar with the reputation in the community regarding the existence and use of Tom's Creek Road. (see Exhibits).
5. All acts of the County regarding this road of which I am aware were consistent with its status as a public highway. These acts included identifying the road as a Class D road in 1976.
6. The road has been included in the state highway system or infrastructure and has been designated as a Class D highway over which the County has been given jurisdiction by the state legislature for construction, operation, and maintenance. The road has been a part of the official

county road system since at least as early as the beginning of 1976.

7. It is the reputation in the community that this road was used by the settlers, ranchers, and others of Snake Valley since at least as early as the 1880s, and was continuously used since that time until BLM closed a portion of the road in 2002 or 2003.

8. By historical records and by reputation in the community, during the time period running from the 1880s until 1976 and continuing until the time of road's closure in 2002 or 2003 uses of the road included but were not limited to, homesteading, logging, mining, prospecting, recreation, camping, picnicking, hiking, hunting, fishing, livestock operations (sheep and cattle), federal, state, and local government access, traveling in and through the area, and accessing facilities that divert, channel, improve, and maintain the streams, springs and irrigation structures in Tom's Creek Canyon. By my personal observation, since the 1940s uses of the road included but were not limited to, homesteading, logging, mining, prospecting, recreation, camping, picnicking, hiking, hunting, fishing, livestock operations (sheep and cattle), federal, state, and local government access, traveling in and through the area, and accessing facilities that divert, channel, improve, and maintain the streams, springs and irrigation structures in Tom's Creek Canyon.

9. By reputation in the community, sometime between 1888 and 1895 Juab County residents operated at least two sawmills in Tom's Creek Canyon and hauled logs, poles, wood, and lumber from the canyon down Tom's Creek Road. I have seen evidence of the sawmills that is still visible today in Tom's Creek Canyon.

10. By reputation in the community, Juab County residents homesteaded in Tom's Creek and Indian Farm Canyons. By that reputation one of those homesteads was patented in 1933. By that reputation Tom's Creek Road was the exclusive means available to access these homestead

sites.

11. By historical records and by reputation in the community, since at least as early as the 1880s Tom's Creek Road was used heavily by Juab County residents for driving livestock (cattle and sheep) to and from summer ranges and for caring for livestock (hauling salt, watching for predators, etc.).

12. By historical records and by reputation in the community, since at least as early as the 1880s, Tom's Creek Road was used heavily by Juab County residents and others for recreation. Since at least as early as the 1940s I, along with many other members of the local population, considered Tom's Creek Canyon to be a favorite camping and hunting area.

13. By historical records and by reputation in the community, since at least as early as the 1880s, the road was maintained by the County as a public highway, freely open for all to use, to come and go as they pleased. By my own observation, beginning in the 1940s until the time of road's closure the County maintained the road as a public highway, freely open for all to use, to come and go as they pleased.

14. By historical records and by reputation in the community, since at least as early as the 1880s vehicles used on the road included horses and horse-drawn wagons. By my own observation, beginning in the 1940s until the time of road's closure, vehicles on the road included two-and four-wheel drive pickups and an old 1942 fire truck that a local family used for camping or picnicking excursions.

15. By historical records and by reputation in the community, since at least as early as the 1880s Juab residents have performed construction and maintenance activities on the road including removing vegetation, moving rocks, filling low spots, dragging logs, poles, and wood down the canyon over the road, and passing horse-drawn wagons and livestock over the rock. In

the years prior to 1976 I personally removed tree limbs from the road, filled low spots in the road, and used a hammer to break and remove large rocks from the road. In more recent times, though still prior to 1976, construction was performed by bulldozer, grader, and other road equipment in addition to the passing of motorized vehicles over the roadway. Both before and after 1976 I have personally observed county personnel grading the lower portion of Tom's Creek Road.

16. When I first used and observed the road it ran the same route as it did at the time of its closure by the BLM in 2002 or 2003.

17. By way of further particulars regarding Tom's Creek Road as it stood at the time of its closure by the BLM in 2002 or 2003, it was a Class D road and was about eight and a half miles long beginning at its intersection with the road sometimes referred to as the Callao-Trout Creek Road and ending at a point on the ridge overlooking the Goshute Indian Reservation and Ibapah Valley. The leg extending from the main portion of Tom's Creek Road to Indian Farm Creek Canyon was approximately one and six-tenths miles long beginning at its intersection with the main portion of Tom's Creek Road and ending at a cabin in Indian Farm Creek Canyon. The actual traveled portion of the road was approximately fifteen feet wide for most of its length but ranged from fifteen to twenty feet in width. The surface of the road was native dirt and rock.

County of Juab)

Tom's Creek Road

Gail F. Parker, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge.
2. I have observed Tom's Creek Road in Juab County since the 1950s and the road descriptions herein pertain to that road. (See incorporated exhibit attached.)
3. I am familiar with the indicated road because I have lived along the Deep Creek Range for much of my life. My relatives settled in Pleasant Valley and Trout Creek in the 1880s. I lived on and ran the Tripp ranch, in Callao, from 1960 to 1985 and ran cattle up Tom's Creek Canyon throughout that time period.
4. It is the reputation in the community that this road was used by the settlers, ranchers, sheepmen, and others of Snake Valley since at least as early as the mid-1880s, and has been continuously used until the BLM closed a portion of the road in 2002 or 2003.
5. I know the families who homesteaded in Tom's Creek Canyon and Indian Farm Creek Canyon in the 1920s. By reputation in the community, Charlie Stewart, his sons-in-law, Ephraim Lewis and Don Sheldon and his wife's nephew, Joe Sabey, all homesteaded in that area. By that reputation, they built cabins at each location. By that reputation, Charlie Stewart homesteaded in Indian Farm Creek Canyon and accessed the homestead using the Tom's Creek Canyon Road. By that reputation, Joe Sabey and Ephraim Lewis homesteaded in Tom's Creek Canyon and used Tom's Creek Road to access the homestead. By that reputation, the only individual who actually proved up on his homestead was Charlie Stewart.

6. By reputation in the community there were two sawmills in Tom's Creek Canyon prior to 1900. By that reputation, one sawmill was located just above Ephraim Lewis's cabin in Tom's Creek Canyon. By that reputation, the other sawmill was located just below Ephraim Lewis's cabin. I have personally observed the ditch situated at this second (lower) sawmill and the ditch is still very visible today.

7. By reputation in the community, from the 1880s to the time of its closure by the BLM in 2002 or 2003, the road was open to the public for all to use, to come and go as they pleased. By my own observation since the 1950s, the road was open to the public for all to use, to come and go as they pleased.

8. Since the 1880s until the time of its closure by the BLM in either 2002 or 2003, by reputation in the community, the road was used for ranching (both sheep and cattle), homesteading, hunting, logging, camping, fishing, accessing range lands, recreation, law enforcement, and traveling in and through the area. By my own observation since the 1950s, the road was used for . . .

9. By reputation in the community, beginning in the 1880s travelers on the road included those who went by horseback and horse-drawn wagon. By my own observation since the 1950s, travelers on the road also included those who went by automobiles, and trucks. [frequency of travel].

10. Beginning in the 1960s and continuing through the 1980s, I hauled saddle horses up Tom's Creek Road in the back of my pickup. The horses just stood in the bed of the pickup without a rack. Upon reaching the upper forks of the canyon, I would unload the horses and use them to put salt out for our cattle.

11. In the early 1960s, I saw a Cadillac sitting at the cabin at the fork of the canyon that

goes to Indian Farm Creek. The road was in good enough condition that the Cadillac had made it up the canyon that far.

12. Since the 1880s, by reputation in the community, construction and maintenance of the road was performed by residents of Callao (formerly Willow Springs) and the surrounding area as needed to keep the road open and negotiable for its many uses. This maintenance included removing rocks and vegetation by hand labor, passing horse-drawn wagons or livestock over the roadway, or some combination thereof. By my own observation maintenance was also performed by heavy machinery. In the early 1960s I observed a bulldozer improving the road going into Tom's Creek Canyon.

13. In the summer of 1999 a fire began in the Basin, north of the western portion of Tom's Creek Road (the portion that goes from the forks at the Basin, westward to the ridge looking down into Ibapah valley). The fire burned up to the road and stopped. The road acted as a firebreak and prevented the fire from burning up more of the mountain. I have personally observed the location where the road stopped the fire's progress.

14. When I first used and observed the road in the 1950s it ran the same route as it did in 2002 or 2003.

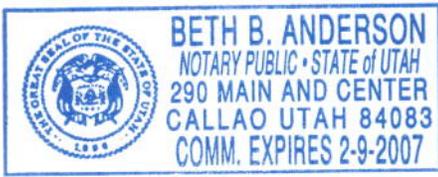

11. By way of further particulars regarding this right-of-way as it stood as of 2002 or 2003, the main portion of the road began at a point where it intersected the Callao-Trout Creek road and ended at a point on the ridge overlooking the Goshute Indian Reservation and Ibapah valley. A leg extended from the main portion of Tom's Creek Road to Indian Farm Creek Canyon and ended at a cabin in Indian Farm Creek Canyon. As of 2002 or 2003, the actual traveled portion of the road was approximately fifteen feet wide for most of its length, but ranged from fifteen to twenty feet in width. The surface of the road was native dirt and rock.

Appendix A to Attachment 4

Popular Name: TOM'S CREEK ROAD

County: Juab

County Road Number: 17110802

State Geographic Information Database (SGID) Road Identification Number: RD121065.

Road-Segment Number: 001

Road-Segment Length: 1.86 miles more or less.

Believed owner of the land underlying this road-segment is: Bureau of Land Management.

The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 11 South Range 18 West, Section(s) 7,8,9,16,17, Salt Lake Base & Meridian

The following description closely approximates the location of the centerline of the physical monument (TOM'S CREEK ROAD)-- Segment 001 based on mapping grade Global Positioning System (GPS) data as defined above:

Beginning at a point on the road center line located at 39 degrees 53 minutes 17.88 seconds North Latitude and -113 degrees 54 minutes 41.04 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 963,882.6 feet and Y = 7,137,157.3 feet; thence the following courses along the said road center line:

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 11 South Range 18 West, Section(s) 15, Salt Lake Base & Meridian

The following description closely approximates the location of the centerline of the physical monument (TOM'S CREEK ROAD)-- Segment 003 based on mapping grade Global Positioning System (GPS) data as defined above:

Beginning at a point on the road center line located at 39 degrees 51 minutes 58.33 seconds North Latitude and -113 degrees 51 minutes 12.82 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 979,893.6 feet and Y = 7,128,679.4 feet; thence the following courses along the said road center line:

thence South 33 Degrees 26 Minutes 39 Seconds East 64.2 feet
thence South 29 Degrees 44 Minutes 16 Seconds East 35.4 feet
thence South 22 Degrees 53 Minutes 47 Seconds East 31.6 feet
thence South 21 Degrees 43 Minutes 39 Seconds East 44 feet

point at: 39 degrees 51 minutes 43.28 seconds North Latitude and -113 degrees 51 minutes 17.49 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 979,489.6 feet and Y = 7,127,166.3 feet.

Appendix D to Attachment 4

Popular Name: TOM'S CREEK ROAD

County: Juab

County Road Number: 17110802

State Geographic Information Database (SGID) Road Identification Number: RD121065.

Road-Segment Number: 005

Road-Segment Length: 0.35 miles more or less.

Believed owner of the land underlying this road-segment is: Bureau of Land Management.

The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 11 South Range 18 West, Section(s) 22, Salt Lake Base & Meridian

The following description closely approximates the location of the centerline of the physical monument (TOM'S CREEK ROAD)-- Segment 005 based on mapping grade Global Positioning System (GPS) data as defined above:

Beginning at a point on the road center line located at 39 degrees 51 minutes 40.48 seconds North Latitude and -113 degrees 51 minutes 15.81 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 979,612.8 feet and Y = 7,126,880.4 feet; thence the following courses along the said road center line:

point at: 39 degrees 52 minutes 42.64 seconds North Latitude and -113 degrees 47 minutes 1.4 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 999,604.0 feet and Y = 7,132,653.3 feet.

Appendix F to Attachment 4

Popular Name: TOM'S CREEK ROAD

County: Juab

County Road Number: 17110802

State Geographic Information Database (SGID) Road Identification Number: RD121065.

Road-Segment Number: 008

Road-Segment Length: 0.29 miles more or less.

Believed owner of the land underlying this road-segment is: Bureau of Land Management.

The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 11 South Range 18 West, Section(s) 9, Salt Lake Base & Meridian

The following description closely approximates the location of the centerline of the physical monument (TOM'S CREEK ROAD)-- Segment 008 based on mapping grade Global Positioning System (GPS) data as defined above:

Beginning at a point on the road center line located at 39 degrees 52 minutes 36.82 seconds North Latitude and -113 degrees 53 minutes 03.93 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 971,337.9 feet and Y = 7,132,801.4 feet; thence the following courses along the said road center line:

thence North 20 Degrees 23 Minutes 28 Seconds East 41.7 feet
thence North 22 Degrees 55 Minutes 18 Seconds East 75 feet
thence North 14 Degrees 29 Minutes 45 Seconds East 76.3 feet
