1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge. My family has owned property in Tooele County since 1933. I have had grazing allotments in various parts of Tooele County since 1936 and continuing to the present.

2. I have traveled and am familiar with a road in Tooele County known as Clark Quarry Road. I am also familiar with the land the road traverses. When I first used and observed the road in the mid 1950s it followed the same route as in 1998 when I last observed it. Attached is a Tooele County map showing Clark Quarry Road. To the best of my knowledge and based upon my use of and familiarity with this road and the land it traverses, the location and route of the road are correctly illustrated on the attached map. The County also identifies this road according to the road number listed above.

3. I have observed that the road has been open to the public for all to use, to come and go as they pleased, since at least as early as the mid 1950s and continuing through 1976 to 1998. Throughout this time period I have observed travel on the road by

various means, including cars, pickups, livestock trucks, ATVs and jeeps. Throughout this time period, the road has been used weekly for more than ten continuous years prior to 1976, and was so used in 1998.

4. Throughout the time period from the mid 1950s to 1998, I have used the road myself for livestock operations and travel in and through the area.

5. Throughout the time period described in the previous paragraph, I observed vehicles using the road at various times for the uses described in the previous paragraph, plus hunting, well access, recreation and government access.

6. It is also the reputation in the community that this road has been open to the public for all to use, to come and go as they pleased, since at least as early as the early 1950s.

7. Prior to 1976, I observed the graded surface of the road.

## Appendix A to Attachment 4

**Popular Name: Clark Quarry Road**

**County: Tooele**

**County Road Number: tc02239a**

**State Geographic Information Database (SGID) Road Identification Number: RD230044.**

**Road-Segment Number: 001**

**Road-Segment Length: 0.14 miles more or less.**

**Believed owner of the land underlying this road-segment is: Bureau of Land Management.**

*The following description is based upon the geographic coordinate system using the NAD83 Datum. The source is GPS mapping grade data as indicated in the metadata and/or the transportation data model of the State of Utah Geographic Information Database (SGID).*

The road-segment itself is the monument that is identified by its physical presence on the land. The location of said physical presence is closely approximated by mapping grade Global Positioning System (GPS) data. Said data are checked against the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS) to verify a reasonable degree of accuracy. In circumstances where accurate satellite signal acquisition is not possible, such as deep, narrow canyons or under a canopy of dense foliage, or where very sharp curves in the road make accuracy questionable, such portions of the road were digitized from the corresponding gray-scale 1-meter Digital Orthophoto Quadrangles published by the United States Geological Survey (USGS).

This road-segment may traverse:

Township 1 North Range 11 West, Section(s) 25, Salt Lake Base & Meridian

The following description closely approximates the location of the centerline of the physical monument (Clark Quarry Road)-- Segment 001 based on mapping grade Global Positioning System (GPS) data as defined above:

**Beginning at a point** on the road center line located at 40 degrees 46 minutes 58.48 seconds North Latitude and -113 degrees 01 minutes 57.55 seconds West Longitude, which can be converted to mapping accuracy State Plane Utah Central Zone NAD 83 feet coordinates of X = 1,215,973.4 feet and Y = 7,457,570.1 feet; thence the following courses along the said road center line:

thence North 80 Degrees 58 Minutes 08 Seconds East 163 feet

thence North 75 Degrees 16 Minutes 20 Seconds East 13.2 feet

thence South 57 Degrees 36 Minutes 06 Seconds East 121.3 feet
